

## DIGITAL DENTAL IMAGING

# PHOCO RVG SENSOR

Photon  
Counting

Low  
Radiation

Reduce  
Chair Time

High-  
Resolution

Discover the power of precision with PhoCo intraoral sensors. Engineered with cutting-edge direct imaging technology, our sensors provide exceptional image clarity and contrast, ensuring that every exposure captures the vital details you need for accurate diagnosis.

- ＊ PHOTON-COUNTING PRECISION.
- ＊ HIGH-DEFINITION IMAGING
- ＊ ERGONOMIC, ULTRA-SLIM DESIGN
- ＊ INSTANT DIGITAL RADIOGRAPHS.
- ＊ SAFER, SMARTER DENTISTRY.

Available in two ergonomic sizes

**1 & 1.5**

to ensure maximum  
comfort.

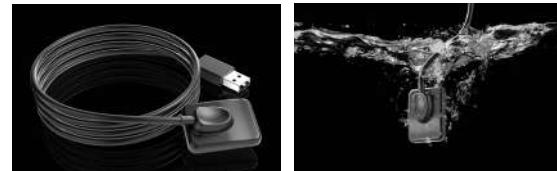

# All-Inclusive Support and Essential Accessories

PhoCo goes beyond just providing top-tier sensors. We offer comprehensive support and a range of accessories to ensure your practice operates smoothly and efficiently.

Smarter Diagnostics with  
**BUILT-IN AI**

Specifications	Mini (1)	Pro (1.5)
Technology	Direct Conversion	Direct Conversion
Dynamic Range	16bits	16bits
Actual resolution	12~ 14lp/mm	12~ 14lp/mm
Imaging Area	20*30mm <sup>2</sup>	25*30mm <sup>2</sup>
Dimensions	26.5*41.3 mm <sup>2</sup>	31.5*41.3 mm <sup>2</sup>
Thickness	5 mm	5 mm
Imaging time	3s	3s
Image Format	BMP/DIR/DCM/JPEG/PNG/TIF	BMP/DIR/DCM/JPEG/PNG/TIF
Connection	F USB2.0	F USB
Waterproof	IP68	2.0 IP68
Cable Length	3m (Extendable)	3m (Extendable)
Support System	Windows 7,8,10	Windows 7,8,10

**Complimentary Software Updates:** Keep your technology up-to-date with free access to the latest software enhancements.
