MODERN MEDICAL IMAGING TECHNOLOGY

The Handheld Dental X-Ray machine is a cutting-edge choice for dental diagnostics, featuring ergonomic design, long battery life, and intelligent angle adjustment for precise imaging.

Parameters Instruction

Model: POCT22

Tube Voltage: 70kV \pm 10%

Tube Current: 2mA \pm 20%

Input Voltage: 100V-240V

Frequency: 50Hz-60Hz

Anode Angle: 12.5 °

Focus: 0.4mm

Exposure Time Range: 0.04s -2.0s

Leak Emissivity: 1meter 0.25mGy/h

Machine Weight: 1.7kg

Relative Humidity: 30%RH-75%RH

More accurate and
more flexible.
