

CHAMPION SINTERING FURNACE ZTCF-30B

High-Temperature Furnace
Temp. upto 1700 °C

Model: ZTCF-30B Plus-Fast Sintering

u	Fast Sinter	: 65 mins (including heating, keeping warm, and cooling)
u	Conventional sinter	: 3 layers of crucible, 150 units
u	Max. Temperature	: 1730°C
u	Temperature control accuracy	: ±1°C
u	Touch Screen	: 7 " TFT
u	Max power consumption	: 3 KW
u	Power Supply	: 220 V 50/60 HZ & 110 V 50/60 HZ
u	Heating element	: High purity heater specially for dentistry
u	Capacity :	Ø 110 ×120 mm
u	Conventional sintering program :	No.1
u	Rapid sintering program :	No.2
u	Cleaning program :	No.40
u	Program :	40 programs can be stored, with power-off memory function
u	Size (L*W*H)	: 590*470*850 mm (L*W*H)
u	Net weight	: 85 KG

Fast zirconia sintering furnace 30B Plus has integrated speed and standard sintering function in one. The sinter speed of the speed sintering program is 5 times higher than the ordinary sintering furnace, and the sintering effect is perfect, the temperature control is accurate, the internal temperature of the furnace is uniform, and the automatic lifting tray design has good sealing performance. At the same time, there is also a program with ordinary sintering speed, which can be operated flexibly according to individual actual conditions and improve work efficiency.
