

ZOTION F2

Fast Sintering Furnace

A high end sintering furnace, which can be used for sintering zirconia ceramics, glass ceramics and glazes.

Model: F2 Fast Sintering Furnace

- **Max. Temperature :** 1650°C
- **Max. Heating Rate :** 100°C/Min
- **Heating Element :** Silicon Molybdenum Bar
- **Temperature Control accuracy :** ± 1°C
- **Temperature Controller :** Separate touch screen,
20-segment programmable
Very easy and simple operation
- **Operation Furnace's size :** Manual
: 420*320*600mm
(smaller & lighter)
- **Rated voltage :** Interflow 220 VAC±20%
- **Rated Power :** 2500w

Denal Lab Equipment Can Sinter Zirconia Glass Ceramics And Glaze, it is a high-end sintering furnace, which can be used for sintering zirconia ceramics, glass ceramics and glazes.
